

Recyclables and Trash Disposal Guidebook

Disposable things have made our lives very convenient, but if we don't dispose of our trash properly, it gradually builds up. This trash also contains many valuable resources that we can use, so when we collect it we try to dispose of it in a way that helps reduce waste and increase available resources that we can use. In order to recycle everything properly, we need your cooperation for proper trash separation. There are a lot of rules for trash separation and disposal, which can be pretty confusing. If you are ever unclear about the rules, feel free to ask us!

★ 4 Basic Rules

1. **Separate** trash according to type.
2. Take trash out only on designated days in the morning (by **8:40 AM**).
(Note that every district has its own schedule)
3. Always place trash in the nearest designated area.
4. Organize trash neatly so it won't scatter.
(due to crows, stray cats, and strong winds)

❌ In the case of strong winds and rain, especially caused by typhoons or other weather conditions, please wait until the next designated day.

Things Not Collected by the City

Large amounts of trash and large objects

The **maximum** amount of trash that you can bring at one time to a Clean Station (where you dump your trash) is **30 kilograms** (about **4 bags**).

If you have a large amount of trash due to moving or plant pruning, please take it to your nearest Disposal Center (see page 16).

Please use **clear 15 to 45 liter trash bags** that are no thinner than **0.025 mm** (available at most drug stores and supermarkets).

Please bring larger items that will not fit into these bags (typically items **over 80 cm**) to your nearest Disposal Center (Cleaning Center or Recycle Center).

❌ If you wish to dispose of large amounts of trash or large items at home, a licensed contractor can transport it to you for a fee. (See Page 2)

Illegal dumping and burning is strictly forbidden!

Carelessly throwing away trash and publicly burning trash are both **forbidden** under the Waste Management and Public Cleansing Act.

Failure to comply will result in **severe penalties**.

We are always on patrol for illegal disposal!
