## Leather • Rubber (Real and Synthetic)

## Paper • Clothing

That Fall Outside of the "Used Paper" and "Used Clothing" Categories

## Others

## Plastics

That Fall Outside of the "Plastic containers and packaging" and "Pet Bottles" Categories

- For items that won't fit into a bag that is **80cm** or less, please **paste a notice** on it and put out.
- For **futons**, as much as possible fold them up (about **1 m**) and bind them.

- If a **leather or rubber** product has metal parts you can't remove, it falls under "Burnable trash".
- The largest amount of trash you can put out at once is 30kg (usually **around 4 bags**). If you must throw out **oversized waste**, or a **large quantity of trash at one time**, you must take it directly to the Disposal Center.
- If you throw away **dirty recyclables** as "burnable trash", please write a note indicating their condition.
- Please avoid the use of newspapers and other recyclables as a wrapping for **private items** and food items.

Things that don't fall under this category.  
( Example )

The following items do not fall under "Burnable trash".  
Please separate them according to type.

Used Paper  
( Page 4 )

Plastic containers and Packaging  
( Page 7 )

Oversized waste ( Page 16 )

If you can somehow break down into less than 80cm, you can throw it out as "Burnable Trash".

Used Clothing  
( Page 5 )

Difficult items  
( Page 13 )

Pet Bottles  
( Page 5 )

Household medical waste  
( Page 13 )

Unburnable Trash ( Page 9 )  
( Plastic items with Metal Parts )

If you remove the metal parts, you can throw it out as "Burnable Trash".
